What is Mortgage Protection?

Your home is probably the most important thing you own so it makes sense that you want to protect it. But what would happen if death or a serious illness meant that you couldn't make your mortgage payments any more?

Mortgage Protection is simply a form of life insurance linked to your mortgage. It's specifically designed to help pay the outstanding balance of your mortgage if the worst were to happen to you. This gives your family the security of knowing their home is safe at a difficult time.

As long as you have enough cover in place, the plan will help to automatically pay off your mortgage if you die during the term of the plan. Your mortgage protection plan is a type of decreasing life insurance. This means

the amount it pays out reduces every month as your mortgage decreases. Because of that, you only pay for the cover you need. And if you arrange a joint mortgage, the plan can cover both people.

Anyone taking out a mortgage is obliged to have mortgage protection in place. Many people take up a policy with their mortgage provider, but it's good idea to shop around for the plan that suits you best. Your financial broker can help you with this decision.

How does Mortgage Protection work?

When you take out a mortgage, your provider will insist you have enough cover in place to repay it if you die within the term of your mortgage. This is a basic type of life insurance cover. However, to give you further protection, you can combine your life cover plan with serious illness cover. This gives you protection for a number of serious illnesses.

When you take out a Mortgage Protection plan, you'll pay a premium each month for the length of your mortgage term.

Your mortgage protection plan helps pay off your mortgage if you die before the end of the term. As it's designed to work with your mortgage, the amount of cover reduces over time as you pay off your mortgage.

As you would expect, because your cover decreases over the term, this type of life insurance is usually cheaper than cover which stays at the full amount throughout the term of the policy.

The cost of your Mortgage Protection cover will depend on:

- **the size of your mortgage - this determines the amount of cover you need**
- **whether you add specified illness cover**
- **the length of your mortgage – this determines the term of your plan**
- **your age**
- **whether you are a smoker or non-smoker**
- **your current state of health**
- **whether you take out the plan by yourself or jointly with your partner**

What is specified illness cover?

Nobody likes to think they may become seriously ill, but it's something you should be prepared for.

Specified Illness cover provides a lump sum cash payment which enables you to take care of yourself and your family if you're diagnosed with one of the conditions we cover.

Being diagnosed and suffering from a serious illness can be emotionally and physically draining. It can disrupt your ability to earn a living or care properly for yourself and your family. You may need to adapt your home or even move house. Specified Illness cover offers you protection from the financial impact a specified illness may bring.

Specified illness under this contract can be selected only on an accelerated basis (where the life cover is reduced by the amount of any specified illness claim), and the specified illness benefit must be the same or less than the amount of the life cover. If you are diagnosed as suffering from one of the listed specified illnesses, we will pay out the benefit amount.

Whether you make a speedy recovery or you have to cope with spells in hospital, operations, debilitating treatments or a lengthy recuperation, specified illness cover can provide a one-off lump sum to help you through.

Specified Illness Cover

Full payment illnesses

Specified Illness covers 47 illnesses on a full payment basis. This means that if you suffer one of these illnesses and satisfy the definition while on cover, we will pay the full amount for which you are covered.

You can't claim under both a partial payment specified illness and a full payment specified illness for related conditions if the diagnoses or events leading to a claim are within 30 days of each other. In these circumstances, the total amount we pay will be the full payment specified illness cover amount.

Once you claim your full specified illness cover payment, you will have no specified illness cover left and no option to claim for a partial payment.

Precise definitions of the specified illnesses and disabilities covered are set out in your Policy Document – together with details of any time limits that apply. In particular, you will need to survive for at least 14 days after the onset of the illness or disability. Any claim for benefits must be made within the time limits specified in the Policy Document.

For further information see the Specified Illness Definitions Guide which provides a full 'layman's' explanation of the specific illnesses that the plan covers, as well as the exclusions and restrictions that apply.

| Minimum – Life cover with Acc Specified Illness cover | 19 | 24 | 5 years |

Premium payments

Premiums can be paid monthly or annually in advance. Monthly premiums must be paid by direct debit; annual premiums can be paid by direct debit or cheque. If you then wish to change from paying monthly to paying yearly – or vice versa – you may do so on any anniversary date. All premiums should be paid promptly – although we will allow up to 30 days of grace to cover the late payment of a premium. If a premium is delayed any longer, the plan will lapse and your cover will stop. If you do not claim during the period of cover, the plan will expire and no benefit will be payable. If you stop paying the premiums early, your cover will stop and the plan will have no cash-in value.

Minimum premium

The minimum premium is €10 per month or €120 per year for single and joint life cover. If your life assurance or combined life and specified illness cover would otherwise have cost you less than the minimum premium, you will be compensated for this by a reduction in the number of years for which you have to pay for your cover.

Assigning your plan

As your plan is an integral part of your mortgage arrangement with a bank or another lender, the plan may be assigned to this third party. Any changes to the policy while your mortgage remains in force must be approved by your mortgage lender.

Reinstatement

If your Mortgage Protection Cover lapses, you may reinstate it at any time within the following 6 months. This reinstatement will be subject to you providing us with satisfactory evidence of your ongoing good health – and paying all the outstanding premiums, plus any late payment charge that may apply at that time.

Early repayment

If you pay off your mortgage early, you may stop the plan immediately – you need to notify us that you wish to do so. However, you may prefer to leave your plan in force, to provide additional security for your family. Your Mortgage Protection Cover does not acquire a cash-in value at any time.

Guaranteed Mortgage Insurability Option

If you increase your mortgage or if you extend the term of your mortgage (but not beyond your 70th birthday) you may take out an additional Mortgage Protection Cover policy, to meet your increased need for life assurance (the new plan is for life assurance only, specified illness cover cannot be included). We'll set up a separate Mortgage Protection Cover policy for your additional cover, and you'll pay an additional premium for this. No further evidence of your good health will be required for that new Mortgage Protection Cover policy, provided that the term of the policy matches that of your extended mortgage and any increase in your cover is not more than €40,000 or,

- 1. if lower, your original level of cover, or**
- 2. if lower, the increase in the amount of cover required**

The premiums payable to the new plan will be calculated based on your age, smoker status and on the rates applying at the time. However, the availability of this option is subject to certain conditions. For example, your original policy must have been issued on standard terms.

Territorial limits (Only applies to plans with Specified Illness Cover)

A claim for a specified illness will be invalid if you are resident outside of the European Union, Western Europe (Andorra, Channel Islands, Gibraltar, Iceland, Isle of Man, Liechtenstein, Monaco, Norway, San Marino, Switzerland and the United Kingdom), Australia, Canada, Hong Kong, New Zealand, Singapore, South Africa, United Arab Emirates and/or United States of America. For more than 13 weeks in the 12 consecutive calendar months immediately preceding a claim.

Exclusions applying to specified illness and terminal illness benefits

We will not pay any Specified Illness benefits or Terminal Illness benefits, where the disability or illness is caused by intentional self-inflicted injury, failure to follow reasonable medical advice or by alcohol, solvent or drug abuse. Specified Illness benefits or Terminal Illness benefits will also be excluded if they are caused by war or civil war; wilful participation in acts of violence; flying other than as a passenger on a recognised airline; participating in a dangerous pastime or pursuit; or any breach of the criminal law. The exclusions are described more fully in your policy document.

Accidental death benefit

We will provide you with free accidental death cover while your application is being considered. Accidental death means a death occurring before age 65 and within 12 months of an accident due to accidental bodily injury arising solely and directly from external violent, visible and accidental causes, totally independent of any physical or mental illness or infirmity.

Your accidental death cover will start on the day we receive your fully completed application and continue until the earliest of three dates:

1. the end of 3 month, or
2. the date that the cover provided by your plan comes into effect, or
3. the date you are informed that your application has not been accepted at ordinary rates.

Should death occur within 12 months of an accident that occurred while Accidental Death benefit was in place, the full amount of life assurance cover for which you have applied will be paid out, up to a maximum of €150,000. In the case of a joint plan this immediate cover benefit will be payable on “first death” basis. This means that, whichever one of you dies first, the benefit will be paid to the survivor. If the plan has been effected on a dual life basis, then the immediate cover benefit will be payable on the death of each life. We will only pay once under Accidental Death Benefit in respect of any life insured regardless of the number of policies or applications for life cover a person has with Aviva.

Accidental Death Benefit will not be paid if death is caused directly or indirectly by any of the following: self inflicted injury including suicide or attempted suicide; engaging in a hazardous pursuit; war (whether declared or not, riot or civil commotion); taking alcohol or drugs (unless they are prescribed by a registered doctor in the Republic or Ireland); committing, attempting or provoking an assault or criminal offence; taking part or attempting to take part in any aerial flight other than as a fare paying passenger on a licensed airline; death in a country outside the EU, Channel Islands, Gibraltar, Isle of Man or the United Kingdom; engaging in a hazardous occupation; an assault on the covered person which is not reported to the police; disease, bodily or mental infirmity or surgical treatment of these or where the covered person acts against medical advice.

Notification of death must be received by Aviva Life & Pensions Ireland DAC at our registered office, Aviva Life & Pensions Ireland DAC, One Park Place, Hatch Street, Dublin 2, D02 E651 within 12 months of the date of death.

Other Exclusions & Restrictions

Some additional exclusions and restrictions may apply to this plan and both the automatic and optional benefits attached to it. These are outlined in detail in your Policy Conditions.
